COMPUTER HARDWARE SOLUTIONS

VHM Variable Height Arm Workstation with Multi-Position Work Surface

WRITE, TYPE, READ AND WORK IN A SINGLE INTEGRATED WORKSPACE.

FEATURES AND BENEFITS

- Includes L Bracket, Keyboard Tray with Slide-out Mouse Trays/Mouse Pads, Work Surface, Storage Bins
- Work surface provides three positions: Over the keyboard for writing/general tasks, tilted up to support documents, behind the keyboard for storage/general tasks
- Plastic bins behind the keyboard tray for storage of barcode scanner, mouse, etc., easily removable for cleaning
- Enhanced keyboard tray provides rigid mouse trays and smooth underside for improved aesthetics when stowed in fold-up position; suitable for keyboards secured by use of magnets
- Cable passage above keyboard tray and below work-surface module to facilitate cable management
